# ABOUT US

## WHO WE ARE

The Partnership for People with Disabilities is an interdisciplinary center that supports people with disabilities and their families to be active members of their communities. The Partnership, part of Virginia Commonwealth University's School of Education, is Virginia's only federally designated University Center for Excellence in Developmental Disabilities.

## WHAT WE DO

The Partnership responds to the needs of individuals with disabilities and their families across the lifespan, from newborns to older adults. Among our partners in creating inclusive communities are numerous disability service providers, early childhood providers, K-12 schools and school divisions, community colleges, universities, professional organizations, and State and local agencies. In FY2021, approximately all of our funding came from both federal sources and state agencies.
